Crisis and Emergency Management: Theory and Praxis (CEM-TP)

Sponsored by: Chungbuk National University, Safe Today, UTD Asia Center

Crisis and Emergency Management: Theory and Praxis (CEM-TP)

INVITATION

Welcome to The 5th Global Crisisonomy Symposium

Good Morning, Global Friends!!!

Nowadays, we are now experiencing various crisis events, such as extreme heat, tsunami, earthquakes, nuclear power explosion, etc. With economic growth and development, global urban conditions have met various kinds of man-made/technological disasters, like building and bridge collapse, chemical pollution, and so on. Recently, a lot of critical infrastructures, for example banking system, air- and harbor- ports, electric system, and IT system, are threatened by new terrorism. Especially, nowadays, Asian people are watching the nuclear bomb development and epidemic disease like MERS.

For accomplishing the safety in Asian-Pacific region, we, scholars and experts in the field of crisis and emergency management, have to devote ourselves to make a cooperative system for academic community for developing Crisisonomy and Disastronomy.

In this time, we emphasize the topic of 'crisis and emergency management and global governance from the Asian and Pacific perspectives. We hope that this symposium will contribute to build the collaborative system among the asia-pacific nations.

We would like to give our thanks to all participants and members. Maybe, without their participation and interest, we cannot hold and maintain this global crisisonomy symposium. Thank you very much for your interest and attendance. We look forward to seeing you in good health.

12 April, 2017

Dr. Jae Eun Lee

Dr. Dohyeong Kim

The 1st Day: April 27th (Thursday)

Venue: JSOM 13.507 (JSOM Conference Room)

Registration & Reception 15:30-16:00

Opening Ceremony & Photo Session 16:00-16:30

MC: Sungsoo Byun (University of Texas at Dallas)

Opening Address

Dohyeong Kim (Director, Center for Geospatial Research in Global Health Policy, UT Dallas, USA)
